Note

The national minimum standard is a nationally agreed standard below which a student has not demonstrated the basic skills of literacy and/or numeracy expected of students at that year level.

The data are derived from the National Assessment Program - Literacy and Numeracy (NAPLAN) undertaken by years 3, 5, 7 and 9 students in May.

The WA Public School percentages are based on data for all students from public schools. Calculations for individual schools exclude exempted students and any students identified with an intellectual disability who sat the test.
